Funding Source:

Dept./Division:

PURPOSE/BACKGROUND:

Emergency service personnel have varying degrees of success in receiving and sending radio communications within certain types of multi-story residential and commercial occupancies. This bill would require such buildings to provide a minimum level of support for radio coverage for emergency service personnel. Input from emergency service agencies and from building industry representatives has been provided. The bill would apply to both new and existing buildings; existing buildings would be given time to be brought into compliance following notice from the City.

RECOMMENDATION:

This bill should be submitted to a Recommending Committee for review, hearing and recommendation to the City Council for final action.

BACKUP DOCUMENTATION:
